

THE KINGFISH COMPANY N.V.

First Half Year 2025 Financial Results (Unaudited)

4 September 2025

Highlights H1 2025

- Sales volume: 1,301 tons (up 41% vs H1 2024: 922 tons)
- Revenue: EUR 17.0 million (up 31% vs H1 2024: EUR 13.2 million)
- Revenue per kg: EUR 13.1 (H1 2024: EUR 14.3)
- Operational EBITDA per kg: -2.0 (H1 2024: -1.1)
- Achieved balance between production and sales volumes

Financial and Operational Review

In the first half of 2025, The Kingfish Company achieved a new sales record with sales of 1,301 tons, representing a 41% increase year-on-year. Revenue reached EUR 17.0 million, a 31% increase over the same period in 2024. Average revenue per kilogram was EUR 13.1, down from EUR 14.3 in H1 2024, due to promotional pricing and a higher proportion of frozen product sales. Gross margin per kilogram was EUR 1.7, compared to EUR 3.6 in H1 2024. Operational EBITDA was EUR -2.0 per kilogram (vs EUR -1.1 in H1 2024).

Cash Flow & Liquidity

Operating cash outflow was EUR 3.6 million. Capex amounted to EUR 0.9 million. Financing activities contributed EUR 11.3 million, mainly from a EUR 14 million equity raise. As of 30 June 2025, total liquidity was EUR 15.3 million (EUR 10.3 million cash + EUR 5.0 million in facilities).

FVA (fair value adjustments)	-2.8	-0.7
Exceptionals	0.0	-0.1
Depreciation	-7.2	-7.2
EBIT	-12.7	-9.6

Outlook

Kingfish expects to achieve positive operational EBITDA and cash flow in 2026 (a one- to two-quarter delay from prior guidance). Focus remains on revenue growth, capacity utilization, and operational efficiency while evaluating the timing of expansion plans in the U.S. and the Netherlands.
